*"Crypto Currency's ONLY Super Coin! | Crypto Currency Now Changed – Forever!"*

## NASDAC Crypto Coin White Paper

### I. COIN STRUCTURE: NASDAC Crypto Coin Is A **REAL** Crypto Coin.

Firstly, the **NASDAC Crypto Coin** is **NOT** a **"token."** Tokens constitute cryptocurrencies that don't have a blockchain network of their own. Instead, tokens are built on another (a real coin's) blockchain. A lesser product than a full Crypto Coin. Contrary to being just a token, the **NASDAC Crypto Coin** is a **Fully Independent, Decentralized Crypto Currency**

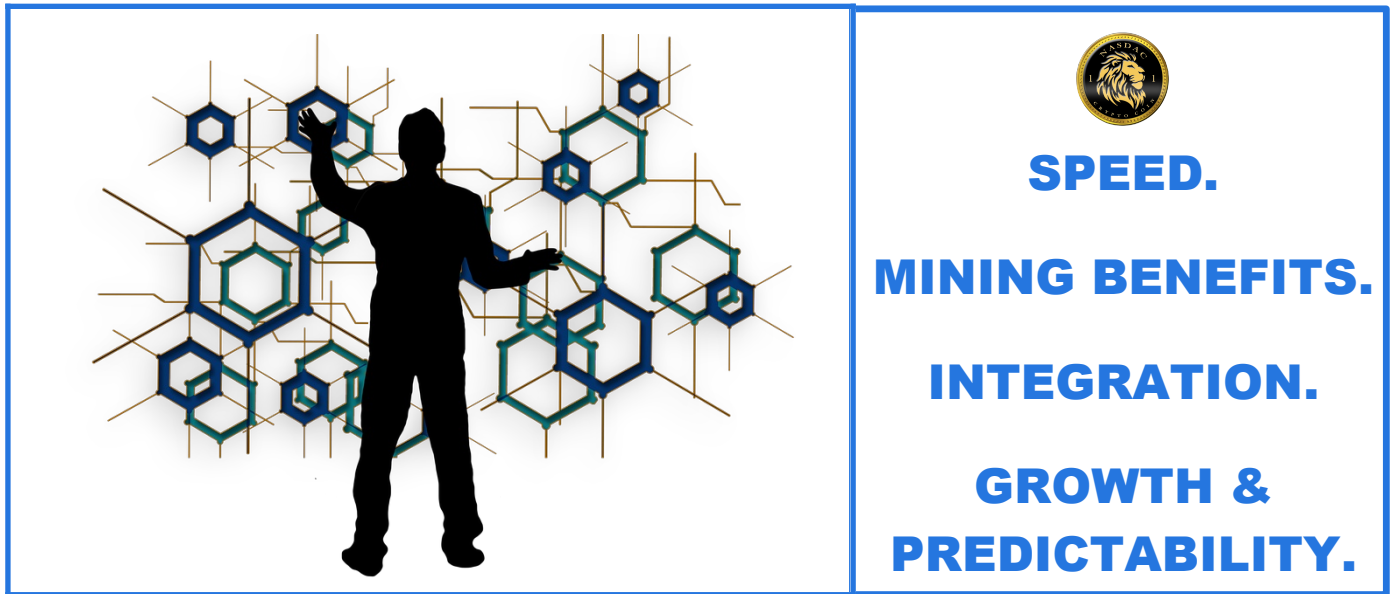

**which utilizes its own dedicated Blockchain and its own independent Blockchain Explorer.**

This fact alone allows the NASDAC Crypto Coin the ability to capitalize on distinct advantages in the Crypto Currency space that typical ERC-20 tokens just can't achieve. Another advantage that the NASDAC Coin has over "tokens" is that tokens require the blockchain of other coins in order to function. DogeCoin (and its variants,) Tether and USD Coin for example, are all "tokens." The NASDAC Crypto Coin being an Independent, Full-Fledged Crypto Currency with its own Dedicated Blockchain, is not dependent on others and this allows for more extensive integrations within FinTech Systems. Lastly, this independence, Proprietary Architecture, Advanced Algorithmic Design, the sum of said parts equals what is being dubbed as Crypto Currencies first SUPER COIN.

## II. A **4 PILLAR** COIN BLUEPRINT - DESIGN THEN BUILD APPROACH

The NASDAC Crypto Coin's deliberate Blueprint, Design Then Build approach proves unique in and of itself in the Crypto Currency Space. In order to facilitate wide-spread adoption, the 4 Square approach to NASDAC Coin provides multiple channels of end-user Revenue Generation.

### III. Built For ***SPEED!***

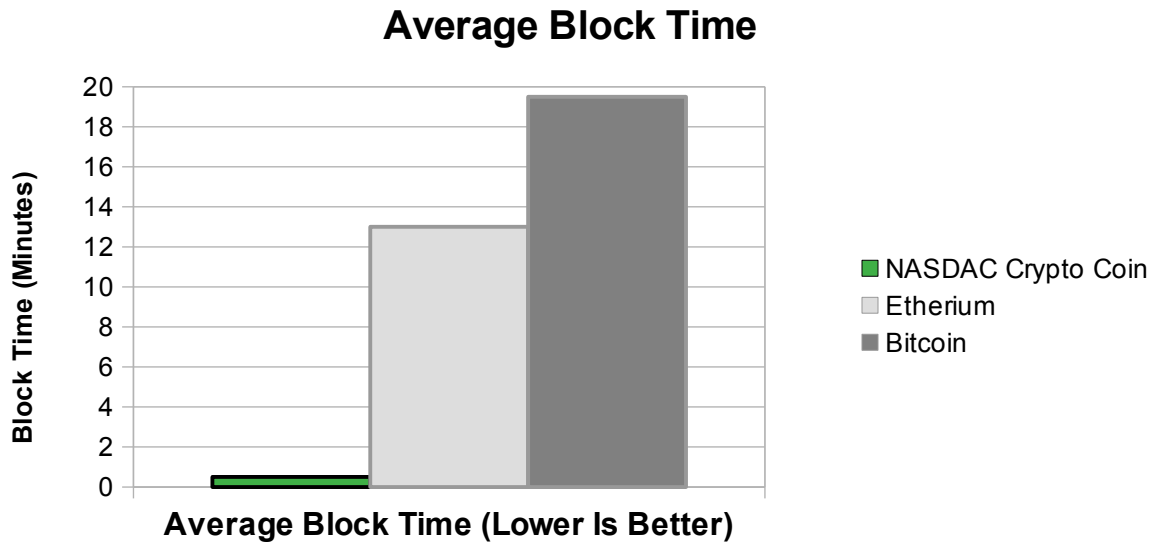

**The NASDAC Crypto Coin is Built-For-Speed.** With Proprietary IP and Advanced Algorithmic Integration, NASDAC Coin provides blazing fast transactional speeds. NASDAC Coin's transaction speeds are as fast if not **faster** than traditional merchant service systems and terminals. NASDAC Coin's transactional speed allows it to be used in demanding real-world retailer conditions unlike Bitcoin and Ethereum. What does this mean in layman's terms: A Bitcoin transaction on average could

take 45 minutes to an hour to complete. **A NASDAC Crypto Coin transaction completes in literally seconds, as in 3 to 5 Seconds.**

Please see the following Block Time Speed Chart.

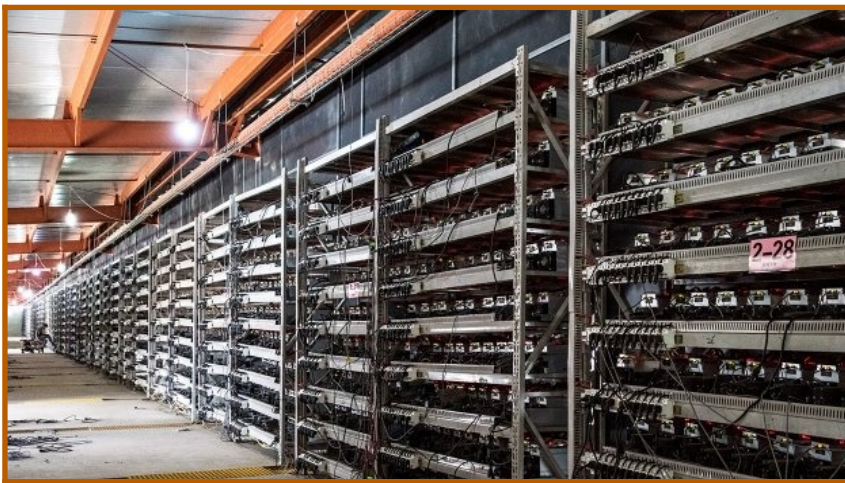

### III. Built For **SPEED!** (Cont'd)

**NASDAC Crypto Coin Average Block Time = Every 60 Seconds!**

**Proof Positive REVENUE GENERATION Via **SPEED.****

### IV. CRYPTO **MINING** RE-INVENTED

Crypto Currency Mining can be defined as the action of generated/creating additional Crypto Coins that become a part of the Blockchain Ledger. Traditional Crypto Currency Mining is well known to be expensive in a duality of ways. Component #1: Expensive from the standpoint of equipment acquisition i.e. the purchasing of specialized ASIC super computers aka Mining Machines or by the purchasing of expensive GPU's to be aggregated into a GPU Mining Rig. This is but

one component in the expense equation. Component #2: The electrical cost to operate the mining equipment itself is extremely high. Add the cost of a facility, cooling etc. it literally cost a small fortune to traditionally mine cryptocurrency. NASDAC Coin changes this. NASDAC Coin utilizes advanced technologies, superior algorithm structure and an advanced Reward System to not only save energy but provides dramatic savings in hardware cost as well.

Please see the following Mining Table

#### IV. CRYPTO **MINING** RE-INVENTED *(Cont'd)*

Cost To Mine <u>1</u> Bitcoin			Cost To Mine <u>803k</u> NASDAC Crypto Coin		
ASIC Model	Unit Buy Price	1 BTC @ .11¢ / KWh	Computer Model	Unit Buy Price	803k NDC @ .11¢ / KWh
Antminer S19j Pro 100T	\$14,000	\$39,930	(Surplus PC) i5 3Ghz, 5Gb Ram	\$200 (Used)	\$11.32
<b>Total Cost For 1 BTC = \$53,930</b>			<b>*Total Cost For 803,000 NDC = \$211.32</b>		

#### V. NASDAC COIN MAJOR **INTEGRATIONS**

The **NASDAC Crypto Coin** has been **BUILT-FOR-BUSINESS**. NASDAC Crypto Coin currently has multiple MAJOR integrations in-work. These integrations include:

##### International Banking

*Currently 47 Banks Across 19 Countries*

##### Hotel & Travel

*Currently Covering 50% Of All U.S. Hotels*

##### Faith Based Community

*Current Base Of 8.3 Million People*

##### Non-Profit Community

*Nationwide - Including Celebrity Non-Profits*

## VI. TOTAL NASDAC COIN **CIRCULATION & SOFT-LAUNCH**

The total circulation of NASDAC Crypto Coin will be 950 Million Coins. An initial Soft-Launch took place August 1<sup>st</sup> - 23<sup>rd</sup>. During the initial 3 week Soft-Launch over 650k Coins were sold at \$1.00 per coin over the 3 week period.

Due to high-demand, a second Soft-Launch window will be opened during the 4<sup>th</sup> Week of August to facilitate approximately 1500 additional request for purchase. Estimated total Soft-Launch Sales/Circulation is 1.7mm NASDAC Coins. The Soft-Launch period sales were achieved with ZERO Marketing

and ZERO Social Media. During the 3 week Soft-Launch the **NASDAC Crypto Coin EXCEEDED the 70 Percentile of Daily Volume of ALL EXCHANGE LISTED Crypto Currencies currently listed on the Coinbase Exchange. Note: NASDAC Coin did this WITHOUT being listed on ANY Exchange.**

**NASDAC Crypto Coin. The World's FIRST Super Coin!**
